

K9 FIREARM EXPOSURE

This 3-day course of instruction will expose your K9 to firearm overpressure and noise pollution in a safe and progressive manner. Allowing you and your K9 to be more confident while; hunting, self-defense, or military and police operations.

This is not a beginner's course. You must have an above average understanding of weapons handling. Training will involve firing from the SHO and SHO positions, shooting on the move with and without K9.

WORKING DOG EVALUATION
